***Water-wise Landscaping Symposium
Wednesday, March 22***

Turf and traditional landscaping consume large volumes of water, time, and hazardous products. In fact, landscaping utilizes 30%-50% of a home's entire water use. This event will provide water conservation tools for beautiful landscapes.

Presentations Obtain legislative updates. Learn new landscaping practices and tools that will reduce water use, protect the environment, and preserve esthetics and function, Seating is limited.

Vendor Expo Talk to experts and learn the latest technologies in irrigation controls, artificial turf, climate sensors, landscape design, and soil amendments. Vendor space is available, yet limited. Reserve a space today.
